## Nation Watches Jo And Nancy On TV

(By Paul Westpheling)

I'M FROM THE TWIN CITIES OF FULTON AND SOUTH FULTON, Jo tells Arthur Godfrey on CBS-TV Monday night... and thus began a conversation that all residents hailed as a beautiful job for community benefit. Then Jo introduced Nancy...

If the whole United States didn't know it before, they have now been informed that the "banana" capital of the world is 500 miles north of New Orleans in the twin cities of Fulton, Ky. and South Fulton, Tennessee.

They also know that the twin cities have produced a beautiful young vocalist by the name of Nancy Adams, who sang her way into the hearts of the nation Monday night on the Arthur Godfrey "Talent Scouts" program and earned herself a featured spot all this week on the morning Godfrey show.

Both Monday night's program and the daily morning program are carried nationwide on the CBS network.

As Nancy's "talent scout," Jo did a marvelous job for Fulton Monday night and the whole area is proud of her and has expressed its appreciation in telegrams, phone calls and messages by the hundreds, both to New York and to the NEWS office.

As the "talent," Nancy was lovely and radiant Monday night. Using the same ukelele that she has so often plunked out her accompaniment with on her programs over WFUL, Nancy acted the part of the seasoned young performer that she is as she did her number to orchestra accompaniment without missing a beat or batting an eyelash.

And all this before perhaps 60,000,000 viewers, says CBS. Possibly a third of the whole nation. Whew!

It was the unanimous consensus in Fulton that the community had sent its two best emissaries to New York and both had come away with a marvelous job.

The whole thing has fairly electrified quiet little Fulton and South Fulton. With excellent publicity afforded by radio, Cape Girardeau TV and nearly every newspaper from Paducah to Memphis, the stage was set for Nancy's appearance Monday night long before curtain time. All other meetings were cancelled and everybody "at work" in town during the show, from waitresses to service station employees, made arrangements to get off for the half hour.

A week-long revival being held at the First Baptist Church, (Nancy's church), supposed to start at 7:30, was postponed 45 minutes so those attending wouldn't miss seeing Jo and Nancy.

Telegrams pouring out of Fulton during the day included the best wishes of the Chamber of Commerce, Nancy's high school class, both Mayors and the Mayor of Hickman, the members of the orchestra and several dozen others.

At 7:30 p. m. all business came to a standstill and every TV set was turned up bright and loud to accommodate the group around it. The neighbors crowded in and the hearts started pounding, as the theme song announced the Godfrey program.

Actually, it was that exciting. Nancy and Jo just don't know what they missed back in the old home town. One fellow described it as the most excitement around here since the earthquake dropped Reelfoot Lake twenty feet back in 1820.

About that time a loud clap of thunder hit Fulton and I figured Jo had exploded up in New York. When she received first notice of this trip ten days ago she first became hysterical and then developed the itch and laid awake all night for the whole week before she left. I had wondered if she would live through it.

Well, the first came out and it wasn't Jo. He brought along some fellow who chews on the harmonica. For two minutes he chewed up the harmonica and then he left.

Then Godfrey went into a spiel about soup and Tillman Adams (at whose home we were) swallowed half his cigar in nervous tension and had to get a drink of water.

And then Jo showed up and she looked fine. Either she had managed to get some sleep or else the make-up department had retouched the circles from under her eyes, but she looked good. When she told Godfrey she came from the "Banana capital of the World" that started a chain reaction that provided discussion on the twin cities of Fulton and South Fulton.

## SENIOR PLAY AT FULTON HIGH WILL BE GIVEN FRIDAY

"Maudie and the Opposite Sex" will be presented at 8:00 p. m.

On Friday evening at 8 o'clock the Senior Class of Fulton High will present the annual class play in the Carr Auditorium. This year's presentation is a three-act comedy entitled "Maudie and the Opposite Sex."

This delightful comedy combines some uproarious complications with the natural concern of a girl's parents, and a fine and genuine affection between two young people. In the midst of all the fun there are some sensible answers to some important questions about young people.

The characters in "Maudie and the Opposite Sex" are as follows: Mrs. Mason, played by Wanda Sons; Mr. Mason, played by Dale Breeden; Maudie, their younger daughter, played by Becky Edwards; Sylvia, their older daughter, played by Patsy Davis; Lynn, a friend of Sylvia's, played by Elwanda Lawson; Davy, Maudie's "steady," played by Ken Winston; Mr. Endicott, a young writer, played by Joe Dallas; Marge, Bev, Sandy, Terry, and Pat, girls of Maudie's age, played by Nancy Wood, Norma Owen, Mary Charles Herring, Patsy Fleming, and Judy Browning; lifeguards, played by David Holland and Don Hogan.

Mrs. Charles Burrow, who is directing the play, is being assisted by Jean Cole Bynum. The stage crew is composed of George Burnette, Truman Satterfield, and Harry Laceywell. David Holland is the stage manager, and Don Hogan is in charge of sound effects.

For an evening of fun, plan to see "Maudie and the Opposite Sex" Friday evening, April 26, at Carr Auditorium, at 8 o'clock.

might expect many times that amount this year if the campaign is not effective.

The appeal is made to city residents and farm residents alike, since the mosquito knows no boundaries when it flies. Distance is its only limiting factor, and that is estimated at a mile maximum range.

Specifically, the Health departments request these points of all residents:

1). Clean up all old tires, tin cans or other containers that will hold water. Dispose of them at once. Leave nothing around that will hold water. Mosquitoes breed only in quiet water.

2). Make immediate plans to screen your house well. Inspect your present screens to see they are mosquito-proof.

3). Be on the lookout for men carrying knapsack sprays, and give them prompt admission to your property. An intensive ground spraying throughout the area will be planned several times during the campaign.

The authorities stated to the NEWS this week that while Chlorthane and DDT will both be used, and DDT for airplane spraying in rural areas, the concentration will not be expected to be strong enough to be seriously harmful to fish in ponds. A few may die, but the entire population will not be wiped out.

## Down on the Farm

### THE TRENCH SILO

Last week I promised you I would discuss the trench silo. Well here goes. This trench concrete silo is the perfect feeding place for the farmers' cattle. That is the farmer who has to cut corners and watch his expenses on farm buildings.

First let's look at the advantages of the trench silo and see if it will pay. First the trench silo made with concrete is the cheapest farm structure you will ever build as far as holding high quality feed is concerned. Even hay is more costly to make than silage and the silage being of much higher quality. Next you can increase your carrying capacity by as much as 25% and your farm productivity 10% with this silo. Since your cows will self feed from it, your man hours will be cut to the nub, when feeding time comes. The cows go to the feed rather than you carrying the feed to them. Let's take corn for silage; corn cut at the proper stage for silage is worth more than 25% to 30% than when it is allowed to mature and is harvested. You do not lose the stalk, leaves and husk. This amounts to 40% of the overall worth of the corn. Of course we can't pos-

sible save it all so we just say 25 or 30 per cent.

In building your silo, plan for the future. We think that if you allow about 6 inches per adult animal unit which is to be self fed from the silo you will be able to determine just how wide to make this new feeding arrangement. Now if you will estimate that each unit will consume approximately 5 tons silage during the feeding months you will know just how large to make your silo. The silo will be 6 to 6½ feet deep and make it as wide as possible in order to cut the length. This will cheapen your silo. Most of our corn yields 10 to 12 tons without sorgham and from 15 up with the cane. The best silage made is oats. That is for dairy cows you want to give milk.

We now have 33 silos here in this area that is made with the silo drench trenching machine. This machine cuts the forms 6 inches wide 7½ ft. deep and on a 15 degree angle. The charge for cutting the form has been 75c per running foot, or a 50 foot silo would cost \$75.00 for the cutting of the forms. Concrete is then poured into these forms and allowed to set for two weeks. When the earth is removed and the floor is poured you have a true cow cafeteria that will save you time and will make you more money. Silos are running in cost from \$3.50 per ton of storage space to \$6.00 per ton.

## P. TIGRETT GOES TO EGYPT TO SELL HYBRID SEED CORN

Parks Tigrett of Newbern, representing Dixie Growers, left by plane for Cairo to complete negotiations for the sale of 50,000 bushels of a hybrid seed corn developed in Tennessee.

The corn, Dixie 33 and 29, was developed at the University of Tennessee Experiment Station and is sold through Dixie Growers, a co-operative marketing organization.

Tigrett said the corn has been tested in Egypt and proved "20 to 25 percent better than corn now grown there."

Consummation of the sale has been held up since last summer by the federal government's action in blocking Egyptian funds because of the Suez dispute. Tigrett said he hopes to work out a method of payment during his two-weeks visit.

He is a member of the executive board of Dixie Growers.

Dear Miss Latane,  
I am a lonely widow and have been married the second time and I want to know if you can tell me if my ex-husbands are still living or not. I haven't seen or heard from them since we got our divorce. I've gone with several and we quit. I couldn't think of carriage again.

I had several to ask me to marry them and I just couldn't do it, and I'm going with a man now I love. We've been going together almost a year now and I just want to know if it is wise to marry again. Was it my fault, that we couldn't get along?

If I should marry this man, would he be good to me or would he be like the others?

### Telephone Talk

by  
**HAROLD WILEY**  
Your Telephone Manager

**TO MOTHER, THE BEST**—Ran across an old friend the other day and he was wondering what to give his mother on Mother's Day. Something really unusual and useful, he wanted. So I made the suggestion, which may help you, too, that he give her an additional telephone in color. It's such a thoughtful gift, one that will save Mother a lot of

steps and time. If you like the idea, just call our Business Office and place your order. We'll install the phone in her favorite color when and where you say, and you may have the small monthly cost and installation charge put on your bill. By the way, if Mother lives out of town, why not surprise her with a telephone call on Mother's Day?

★ ★ ★

**EVER STOP TO THINK** how many different ways the telephone helps in your daily life here in town? It takes you to the stores, the doctor's office, business associates... it brings friends to your side, makes life easier and more pleasant all around. In the old days, you know, folks saw the phone as a modern miracle. Today, you take its faithful service for granted and we want you to. Tomorrow, you'll see many new developments—even now in the works—that will make your friend, the telephone, more than ever a part of better living.

#### DID YOU KNOW...

Just 30 years ago this month, television by wire and radio was demonstrated by the Bell Telephone Laboratories. What a long way we've come since then!

Israel has existed as a nation for only a few years, yet it shares honors with Japan for the highest telephone development in Asia. Each country has three telephones per 100 inhabitants (the U. S. has 34 per 100 population).

Dear D. P.

No you and your husband will never be happy as long as you're in love with someone else, and the person you think you're in love with doesn't give a darn about you, but your husband does love you. He knows there is something wrong and it keeps his nerves torn up all the time for fear you will leave him. Your baby will be a girl and will be normal. Yes you will have a chance to get D. E. back but not for marriage.

Dear Pat,

Will you tell me if the man I am going with loves me? Will I marry? Will there be any children? Could you tell me if I marry in what year will it be? Will I remain here or live some place else?

Have I met the fellow I will marry?  
Thank you,  
B. B.

Dear B. B.  
No the boy your going with doesn't love you, he likes you a lot but not enough for marriage. No you have not yet met the man you will marry; you will marry in the year 1960 about the middle of the summer. You will live Southeast of here and you will have two children.

Dear Pat,

There is a friend of mine who had some money to disappear. Could you tell me where the money went? Has it been spent, or will they get it back? Did the person we have in mind take this money? This person is not here any more; where is he? Why did he leave?

Please answer.  
B. F.

Dear B. F.  
The man you are thinking of took the money, he has spent the money; you won't get it back. This person is in Chicago; he has done so dirty and bad that he got ashamed of himself and he knew he was

just before being found out, so he decided the best thing for him to do was get out of the picture.

Dear Patricia,

I've been reading your letters and I've become interested in them. There are a few things I'd like to ask you.

Will me and my husband always live together, or will he go to some other place, and where? Does he love me?

Has he ever gone with other women? Can you give me their initials, and can you tell me where one man I once loved is?

Will my daughter finish school, or will she get married before she finishes? Does the boy she is going with love her and does she care for him?

If my husband should go some place for a while, what will he go for? Will you please answer?

Anxious

Dear Anxious:  
Yes your husband loves you, and he will go somewhere else for awhile, but you will move there also. He will go somewhere else to work. No, your husband has been true to you, as for this man you once loved he is up North. Your daughter will finish school. She likes this boy and he likes her but they aren't in love.

Dear Miss Latane,

Will you tell me whether or not I will buy the house and lot that I have wanted so long? From here I don't see a shadow of a chance but, maybe you can.

Thanks,  
B. M. G.

Dear B. M. G.  
Yes, you will get the house and lot but it will be the latter part of 1958 before you make a deal for it.

Dear Miss Latane,

I had some land taken away from me. Can you tell me how to get it back?

The man I have been talking

to, does he love me?

Will I still stay in Fulton, or will I move?  
G. C.

Dear G. C.

My advice to you is to go see a lawyer, but I don't think you will ever get your land back.

Yes, the man does love you and you will marry him within the next 6 months.

Yes, you will stay on in Fulton.

Dear Miss Latane,

I have some questions to ask you. I want to know who got the hundred dollars from me in '46, and I also want to know who got my mother's dresses and her glasses if you can tell me. I want to know if they have still got them or not, and I have lost some things that I can't mention. I want to know who got them and if you can tell me what it is I lost and if you can, I will write and ask some more questions.

Just one more question. I am going with a boy and I've been married and the boy hasn't. I love this boy and we've been going together almost a year. Would you tell me if he loves me or not?

I think he does. He never in so many words, told me so, and I'm wanting to know your answer.

H. G.

Dear H. G.  
Your mother took the \$100.00 in 1946; she broke her glasses and threw them away and as for the dresses she burned them up. The things you mentioned losing that you can't mention are in connection with a married man. Yes this boy does love you and you will marry him in about a year.

Dear Miss Latane,

Read your letters each week and enjoy them very much. Would like to ask a few questions.

Why does my daughter-in-law have it in for me?

The Fulton News Thursday, April 25, 1957 Page 3

What have I done to cause her to dislike me?  
Will I ever see my son any more? Will it be possible for me to get old age assistance, When?

Yours,  
L. C.

Dear L. C.

Stop trying to run your daughter-in-law's life for her; keep your nose out of her business. I really don't think you realize how much you do things like this but you are bad at it. Try to stop it. No woman wants someone else to bet telling them what to do and how to do it. Yes you will see your son again. Yes, you

will get old age assistance the first of 1958.

#### Shirley Homra and Charles Homra Are Married Here Sunday Afternoon April 21

The sanctuary of the First Methodist Church was a beautiful setting for the elaborate wedding of Miss Shirley Homra, daughter of Mr. and Mrs. Foad Homra, and Charles Homra, son of Mr. and Mrs. Kimlin Homra of Steele, Missouri. The double-ring ceremony was solemnized at three o'clock in the afternoon on Sunday, April the twenty-first. The Reverend Henry E. Russell, pastor of the church officiated. The wedding was witnessed by a large assembly of relatives and friends of the popular young couple.

During the assembling of the guests Mrs. Clarence Maddox, organist, gave a program of nuptial music.

The lovely young bride was escorted to the altar and given in marriage by her father. She wore a most beautiful formal wedding gown, a Frances Dehner original creation of antique peau de soie faille poised over nylon tulle and taffeta. The long Priscilla basque was designed with an off shoulder portrait neck outlined with medallions of imported rembroided Alencon lace studded with pearls and sequins. A finely pleated fold of the silk threaded through these medallions. The long sleeves buttoned from the elbow to the points over her hands. A wide pleated fold applied with the jeweled lace medallions joined the long bodice to the skirt and crossed in the back to form a bustle and extended in cascading streamers to the hemline. The three gathered skirts developed over Southern Belle Petticoats into voluminous fullness extending into a Cathedral train.

Her triple-tier veil of ivory

tone. Imported bridal illusion with short blusher and hand rolled hems cascaded from a Queen's crown of lace studded with pearls, sequins, and rhinestones. Her only jewelry was a single strand of pearls, a gift of the groom. Her bouquet was of white, fuschia throated orchids and lilies of the valley placed on a white prayer book. The flowers were tied with potted satin ribbons and were showered with the ribbons in which lilies of the valley were tied.

Mrs. Bill Homra was the matron of honor; the bridesmaids were Miss Donna Gail Patterson, Miss Frederica Gibson, Miss Beverly Homra, sister of the groom, and Miss Barbara Snow. Miss Pamela Homra was the Junior bridesmaid.

Teresa Smith and Cynthia Homra were adorable flower girls in their formal frocks fashioned of white tulle over net and taffeta.

Victor Fiesel served the groom as best man; the ushers were Bill Homra, Lt. Eddie Noffel, Jerry Homra, A. B. Homra, and Kamel Naifeh. Following the ceremony Mr. and Mrs. Homra entertained with a large reception at the Fulton Country Club. Assisting in receiving and serving the guests were Mrs. Fred Homra, Miss Lola Homra, Mrs. Robert Naifeh, Mrs. John Rashid, Mrs. Sam Homra, Mrs. T. A. Hamra, Miss Barbara Ann Boyd, Miss Kay Blanche Hamra, Miss Jacqueline Johnson and Mrs. Jerry Hawks.

Early in the evening the bride and groom left for an extended southern wedding trip after which they will be at home in Ridgely, Tennessee.

#### Janice Wheeler Becomes Bride of Wendell W. Rorie In Ceremonies Here April 20

In a lovely candle-lit setting of bridal green, orchid, and white, Miss Janice Wheeler, daughter of Mr. and Mrs. Bennett Wheeler, became the bride of Wendell Harmon Rorie, son of Mr. and Mrs. Harmon Rorie of Gracey, Kentucky, on Saturday afternoon, the twentieth of April, at the First Methodist Church. The Rev. Henry E. Russell officiated using an impressive double ring service.

Preceding the ceremony, Miss Charlotte Reagan, soloist, sang "Because" and "Oh Promise Me". She also sang the Malotte "Lord's Prayer" before the pastoral benediction. Mrs. Clarence Maddox, organist, presented a program of nuptial music.

The stately young bride was given in marriage by her father. She wore a handsome originally designed wedding gown of imported lace over heavy satin. The dress was designed along empire lines; a tiny satin binding edged the high neckline; satin covered buttons closed the long pointed sleeves and the back of the bodice. A satin fold encircled the high waistline and tied in a tailored bow in the back. Satin streamers extended to the bottom of the widely flared skirt. Her misty tiered veil fell from a Juliet cap of tulle and pearl encrusted lace. Her bouquet was of white orchids and stephanotis.

Miss Ann Davis Latta was enjoyed some fishing at Ky. Lake. Aren't we all proud of Nancy Adams and her sponsor, Jo, after the appearance on Arthur Godfrey Talent Show last night.

Mr. and Mrs. Lester Alford of Dyersburg were visitors in Pierce Sunday afternoon. Mr. and Mrs. William Long, David and Paula, spent Sunday in McConnell with Mr. Long's parents.

Bill Reese has returned from a hospital in Memphis and is doing very well.

Last Sunday was saddened for many of this community when they learned of the tragic death of Mrs. Polly Pierce, the mother of Sister Jane Brown of Henderson, Tenn. Mrs. Pierce whose home was in Washington, D. C. left home Saturday morning to visit Brother and Sister Brown in their home in Henderson, and died instantaneously in a one car accident in Lexington, Va., when her car left the road and plunged down an embankment. While we did not personally know Mrs. Pierce we were saddened because of the close attachment with Sister Jane that was informed as she and Brother Charles worked with the congregation at Oak Grove Church of Christ over the past 4 years. Details of the cause of the accident are unknown, but it brings one thought to mind, in this day of mechanization on the highways even the most careful of drivers must be doubly vigilant or this tragedy can easily be repeated in our own lives. Weekend guests of the Brooks

Olivers were Mr. and Mrs. Kirby Blackwell of Birmingham, Alabama. They were accompanied by Mrs. Blackwell's mother, Mrs. Alvis Rucker and Mrs. Z. E. Roberts of Birmingham, Alabama.

Mrs. Nolan Williams remains seriously ill at her home in Duketown, Tenn.

Members of this area are urged to attend an Operetta at the Chestnut Glade schools on Friday night April 26th. We should all try to show our appreciation of the time and effort given by our children and their teachers by attending this and other functions of the various schools of our community.

Mrs. Estell Kimberlin of Fulton, is in McCleary Clinic of Excelsior Spring, Mo. Mrs. Kimberlin underwent surgery and we wish her a speedy recovery and return home.

Mr. and Mrs. A. G. Wallace and Mrs. Brooks Neely of Hornbeak, Mrs. Guy Settle, Tiptonville, Mrs. Charles Drane and Valdivia Rice of Memphis visited Mr. and Mrs. Guy Finch

and children Monday afternoon and evening.

The last PTA meeting of the school year will be held at Chestnut Glade Thursday evening at 7:30. A special program is being planned and we invite and urge all members to attend and visitors are always welcomed.

ton, railroad traffic, municipal government and boundaries, her children, the Governor of Kentucky and politics in general. They got right up to the point where the next question was bound to be about the present governor, but at that climactic moment Godfrey steered the conversation elsewhere, and in Fulton County probably four thousand held-breaths were turned loose.

And then came Nancy. I knew from previous conversation with her from New York that the band was going to fix her up a good arrangement on "I Dream", and that she was going to use her ukelele. She liked the number and wanted to do it all along because it had a good lively tempo. I knew that with a good band behind her she should be full of confidence; I had seen her pretty dress before she left Fulton and knew she had enough microphone experience behind her that she

might escape mike fright.

(After all, ten days ago we played a high school prom with a band down in the Milan (Tenn.) gym before at least 200.)

Nancy did well.

Then the next scout brought along a young male singer from somewhere down around Georgia, and he had a nice voice too, and looked good. He also did a nice job.

Then Godfrey went into a spiel about soup again. Barry Adams and my two kids started clapping because they knew neither of the others could beat Nancy. Montelle Tripp kicked her shoes across the floor in nervousness and Tillman ate the rest of his cigar.

When they got around to testing the volume of applause, the harmonica chews didn't do so hot. Nancy rang up a high figure, and the young male vocalist was hanging on a thread, a fraction lower than Nancy when something caused the thing to jerk momentarily

and come up even with her. I hadn't found out when I was writing this, but I suspect that the little jerk might have been caused from a dull thud behind the curtain right at that instant which could have been Jo passing out cold.

Godfrey proclaimed the tie and the rest is history: Nancy and the young man are appearing all this week on the morning Godfrey show.

The rest is history. Of course this is history, too, but we had to record it. Wasn't it wonderful!

## LETTERS TO THE EDITOR

THE NEWS welcomes expressions from its readers. Such items must be signed but name will be omitted from publication if requested.

"The News"  
Fulton, Kentucky  
Dear Sirs:

I am trying to locate information relative to parents of my Great Grandfather, Rev. Enoch David Baker, who helped found the Methodist Church, "Palestine," in Fulton, Co., in 1834. I have been told he came to Gardner Station with his parents (from Virginia) in 1829. Rev. Enoch David Baker married Elizabeth Hall in 1835. It might help if we knew where she was from?

I have a copy of your paper of January 27, 1950 mentioning the new church and also the old ones which burned. The article mentioned Great Grandfather.

Do you have old papers on file or do you know of any library which would have same which in mentioning the old churches, when destroyed, would perhaps mention Rev. Baker or his family? Could you contact them for me?

I notice the town of "Cayce" mentioned. Is that close to you? Are there any records there, Are there perhaps records of the "Palestine Cemetery" early burials? — or any other old cemetery at Fulton?

Great Grandfather was buried in January 1884 at Gardner Station Cemetery. Perhaps old files would carry information (relative to his early life) at the time he was buried?

Would the "Veterans" Grave Registration Service carry the Father's name (from the Revolutionary War)?

Would appreciate so much any help you can give us. Also perhaps you know of someone who can look up some of this information.

I once had news of a Henry Baker of Chowan, North Carolina and "Mehring" Landing, with sons Enos and David, etc. Enos was in the Revolutionary War. Apparently the name of the town has been changed — and up here I'm unable to locate the town of Chowan or what county it (is) or was in?

The Denver Library says in the very early days some of the counties in North Carolina were part of Tennessee (?). Will greatly appreciate a letter from you. Perhaps the present Methodist Minister at "Palestine" would help us?

Sincerely,  
Vivian Hildreth Tarkington  
(Mrs. Allen R. Tarkington)  
840 Niagara Street,  
Denver 20, Colorado

Ed's Note: We are pleased to publish the above letter from Mrs. Tarkington so it will thus be well circulated throughout the Palestine community area and we urge all who can "fill in" Mrs. Tarkington to write to her direct. We have also forwarded the letter to Mrs. Leslie Nugent, in Fulton, our Palestine correspondent, who is a walking history book of the area.

To Mrs. Tarkington, may we say that although we do not have a public library which would contain the records you seek, we have the world's greatest unpublished collection of genealogy recorded in personal family bibles. We have had occasion to examine a number of them at various times and from some of them one can obtain family trees dating back almost 150 years. We feel sure that the information you seek will be thus provided. If you still seek additional information feel free to write us again!

Now, as to some of your other questions: Cayce is about 10 miles from Fulton, but being unincorporated, does not have official records. For such data you would have to write the County Court Clerk at Hickman, which is our county seat.

## If you're in Business, you should advertise

How long does an advertiser have to wait to realize a profit from his advertising?

Frequently, our want ads sell the items advertised immediately after the paper is published. And even before publication, a newspaper or radio station often get calls requesting information on advertisements.

Although much retail advertising pays off quickly and dramatically, the full effect of some advertising is not felt for months or years. The speed of impact varies greatly with products and the nature of advertising programs.

For instance, the Hammond Organ company spends a million dollars annually on advertising. However, no single advertisement results in immediate sales. A Hammond official says: "The average Hammond customer

thinks about it anywhere from six months to two years. We have to keep reminding him. It's unlikely that any single ad sells an organ."

Some advertising campaigns must run for decades before the full impact is felt. The DeBeers diamond mines started a campaign 1939 to increase diamond sales. The campaign is still running. Immediate results could not be measured; but during the 18 years covered, diamond sales per marriage have gone up two and a half times.

The same process works on a local level. The bank, the insurance company, the restaurant the florist, the jeweler, or the automobile dealer who advertises today is getting for more than immediate sales.

Today's advertiser is building business for tomorrow, next year, and five or ten years in the future.

## SERMONETTE OF THE WEEK

### Is Divorce the only answer?

By Charles G. Johnson

Associate Editor of THE TIDINGS

"WHY DO MEN and women, once in love file for divorce?"

For Judge Louis H. Burke of the Los Angeles Superior Court, this question was important. He knew that in the courts of Los Angeles County alone, the fateful words, "Divorce granted", were intoned more than seventy times daily. Something had to be done about this, and the judge decided to do it.

BEHIND THE COMPLAINTS of sparring couples, Judge Burke discovered one central fact: Too many U. S. couples fail to realize the finality of the marriage bond — that it is a lifetime contract.

What's more, marriage is a special contract since it involves God. Through marriage a man and woman receive the right and privilege to cooperate with God in bringing children into the world. It is not for pleasure or convenience that people marry but to help God. Marriage then is sacred. A FAILURE to recognize this basic

truth about marriage has resulted in our overwhelming divorce rate. Many divorces could be avoided if this "sacredness" were better understood. But how could this be done?

If the marriage contract itself was not enough to keep couples together, perhaps a legal contract would help. Six months and 50,000 words later, Louis Burke came up with the answer. THE JUDGE'S contract was more than a kiss-and-make-up proposition. It had teeth providing for stiff fines and even jail sentences. Its 36 pages cover the whole range of family relations from nagging to sex.

No one is forced to sign this contract. All couples who want to mend their marriage can study the document. If they sign, they do it voluntarily.

AFTER THE CONTRACT, such violations as tampering with the family budget, losing one's temper, or giving the silent treatment will land the erring spouse in court. What was before a domestic problem is now a civil offense.

How successful is the contract?

TIME MAGAZINE in an article on Judge Burke declared: "In two years his court has become a prototype, and his 887 united homes are a shining record."

Reviewing the hundreds of reconciliations in his court, the judge himself says, "There is little equal to the satisfaction of aiding a couple to surmount misunderstandings, forgive injuries, and go back together determined to face the future with love, hope, and trust."

JUDGE BURKE was spurred on by conviction that marriage is a sacred contract, blessed by God Himself. If all of us shared this conviction, many more couples would be saved from ruin.

with her fine collection of current recordings of top vocalists, bands, combinations; listening to them, studying their style, even copying a few tricks for her own use. She's well informed on these things, like any professional must be. Of course she's young; she has more to learn, but I have never seen anyone as eager.

I am still amazed at her trumpet performance for the scholarship audition at Murray in February; I did her accompaniment for that one. She picked the hardest trumpet number ever written, practiced hard on it for three weeks by herself; spent a week running over it with piano and then went to Murray and blew the roof off the fine arts building.

All the trumpet playing she has even done was with the Fulton High school band plus second trumpet with the Melody Men! Of course, as second trumpet with the orchestra she was playing alongside Charles Wade Andrews, whom I have for three years regarded as the best on the horn in West Kentucky and Tennessee, bar none.

Nancy is proud of her honor roll standing at Fulton High and does, above all, demand of herself that she continue her college schooling. I am sure that any decision she makes this week or next will be influenced by whether or not she can continue her schooling with it. When she auditioned in Nashville she was hoping that any possible call to New York would come after graduation in Fulton High in May and not before; when she left for New York last week she fully expected to return to Fulton in 10 days get back to school, and then go to Murray for summer school.

Who knows what the future will bring for Nancy? Whatever you do, don't sell her short. And Jo's with her. Don't sell her short, either!

## Kentucky Windage

By F. W.

Probably all who are following the career of Nancy Adams are wondering today: is Nancy coming back to Fulton after this week of nation-wide TV appearances, or will offers and opportunities keep her in New York? Has her appearance on nation-wide TV stirred anyone to seek her out for regular programs, or anything else in the entertainment field?

Don't laugh. Our friend Nancy is enjoying that once-in-a-lifetime (for many performers) opportunity to zoom to something big, overnight. This week she is playing the major leagues; she is being looked over by recording companies, TV show directors, probably musical acts, trios, girl orchestras... who knows what all.

And when you get a big break like that, you take advantage of it if the opportunity presents itself. I don't imagine Nancy is shopping around, but I feel pretty sure that if someone is looking for her and offers an attractive deal that she likes, Nancy will accept it if possible. I think she should and I think we should all encourage her to do it.

There is wonderful opportunity in television and making your own records. A "name" as a start on TV and a "voice" for hit songs are a combination that has made big money for those who reach for the big moment and get it. Around you today you will see more than a dozen young stars who started out just that way.

Nancy plans to see the big recording companies in New York. All of them have lots of unpublished tunes, just waiting for the right voice to fit.

Nancy, Bobby Boaz and I played with an "outside" band for a dance down in Milan, Tennessee just after she had been notified of the TV selection, and the band director, when he heard the news, shook his head in despair, saying that once Nancy got to New York she'd probably not come back. A number over at Murray in college musical circles feel that they have already lost a prospective freshman whose coming they have looked forward to.

Nancy had planned to sing with the band next year. I believe there may be big things in store for her, because she has the looks and the ability. She plays the ukelele well and Godfrey likes the ukelele. We know she was in a special private conference Saturday afternoon with Janette Davis, producer of the Godfrey show... perhaps she will stay on with Godfrey after this week. Perhaps Janette has other suggestions for her; I wouldn't be surprised that Janette has taken quite a fancy to her.

Nancy also has a fine voice and knows popular styling. While most of the rest of her classmates at Fulton High have been doing other things this year, Nancy has spent many quiet hours before her prized hi-fi record player at home

## "Monthly Pains" stopped or amazingly relieved

In 3 out of 4 cases in doctors' tests. Chances are you're putting up — unnecessarily — with the functionally caused pains, cramps and weak "no good" feelings of menstruation!

For, in actual tests by doctors, Lydia Pinkham's Compound brought complete or striking relief from such distress in 3 out of 4 of the cases!

Lydia Pinkham's is modern in its action! So get Lydia E. Pinkham's Vegetable Compound — or new, improved Tablets with added iron. See if — taken through the month — it doesn't give relief from those backaches, jitters — help you feel better before and during your period!

Or — if you suffer from functional "hot flashes" or "change of life" — find out how wonderful Pinkham's is for that, too!

It has a quieting effect on uterine contractions that often cause "period" pain!

ferent cut flowers were brought by members and Mrs. King gave an interesting discussion of fundamentals of flower arrangement. Also type of containers to use in different places and fixed several beautiful arrangements.

Reading report given by Mrs. C. B. Caldwell in absence of Mrs. Murphy. Books were exchanged and number of books each member had read.

Followed with a "Quiz on Women."

## JACK ROBERTS WITHDRAWS NAME

Harry W. "Jack" Roberts this week announced that he is withdrawing as a candidate for commonwealth attorney in the first judicial district of Kentucky, comprising Fulton, Hickman, Carlisle, Ballard and Graves counties.

In making his withdrawal announcement, Roberts said

that at the time he entered the race he did so under the impression that the incumbent commonwealth attorney Flavius B. Martin of Mayfield, was in failing health and would not stand for reelection.

Martin last week announced that he is a candidate again and would enter the May 28 Democratic primary for reelection.

Roberts, who made it clear that he had entered the race only because he thought Martin

would not run again, said that it would be "pretentious" of him to continue in the race in view of the fact that during the past 36 years his fellow attorneys in the district had never contested Martin because of their respect for his performance of the duties of the office.
